Deadline for manuscript  
submissions:

**31 May 2023**

## **Message from the Guest Editors**

Dear Colleagues,

For a long time, diseases in animals have existed alongside human diseases and seemed only relevant when food-producing species were affected. Factors including the zoonotic potential of several agents, animal welfare, the role of companion animals in modern society, and antimicrobial resistance have not only increased attention to veterinary diseases but have also shaped the field of One Health. Diagnostics have proven to be key in the detection of disease, not only during outbreaks, but also in the context of monitoring and surveillance. The European Association of Veterinary Laboratory Diagnosticians (EAVLD) is a non-profit, independent organization of individual members with the mission of improving veterinary and public health by providing a platform for communication among veterinary laboratory diagnosticians and to promote the highest standards in European veterinary laboratories. In addition to veterinary diseases and their impact on human health, the EAVLD focuses on proficiency testing, quality systems and control, laboratory sample management and information management systems and innovations and new insights in diagnostic technologies.

an Open Access Journal by MDPI

## Editor-in-Chief

### **Prof. Dr. Patrick Butaye**

Department of Pathology,  
Bacteriology and Avian Diseases,  
Faculty of Veterinary Medicine,  
Ghent University, Salisburylaan  
133, 9820 Merelbeke, Belgium

## Message from the Editor-in-Chief

Veterinary Sciences (ISSN 2306-7381) is an international and interdisciplinary scholarly open access journal that aims at publishing research in all fields of veterinary medicine in a democratic way. We encourage scientists to publish their original research articles, reviews, communications, and short notes in as much detail as possible. Articles submitted that involve subjecting animals to unnecessary pain or suffering will not be accepted, and all articles must be submitted with the necessary ethical approval (please refer to the Ethical Guidelines for more information).

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [PubAg](#), [AGRIS](#), and [other databases](#).

**Journal Rank:** [JCR - Q2 \(Veterinary Sciences\)](#) / [CiteScore - Q2 \(General Veterinary\)](#)
